

# Nazareth, Move Me

Time goes between us, and there no release  
Silent refence to defenses raised higher  
Than wel ever need  
The more we try, flame inside gets colder to the touch  
Taking for granted, gets taken for granted too much

So come on and move me  
Let me feel you move me  
Prove me wrong, show me I still belong  
Come on and move me  
Let me feel you move me like you used to

She never asked anything of me  
That I could ever be  
Now wee lyin?in the shade  
Sharpenin?the blades of our rivalry  
Untidy lies, they could never disguise  
The truth behind the door  
Feelin grow nearer, then disappear again some more

So come on and move me  
Let me feel you move me  
Prove me wrong,s how me I still belong  
Come on and move me  
Let me feel you move me like you used to

There can be no contention, come on and move me  
Let me feel you move me  
Prove me wrong, show me I still belong  
Come on and move me  
Let me feel you move me like you used to  
Move me, come on.
