Countdown's starting, now the goin's gettin' rough  
I give you my lovin' but I guess it ain't enough  
Once upon a time you were proud I was your man  
Now your low on affection and I get it when I can  
When your friends all visit and they see me comin' through  
There's a voice from the crowd sayin' "who the hell are you? ? i'm just a part of the scenery I  
A thorn in your rose, kinda spoilin' the view  
I'm part of the scenery. watcha gonna do about me?

Wanna be strong, try to put you in your place  
I show a little love, get the sand in my face  
I try to get up, always something goin' down  
Caught in the middle of your merry go round

The wise men say I should leave well alone  
But the same wise men just call when you are home  
I'm just a part of the scenery here with you  
A thorn in your rose, kinda spoilin' the view  
I'm part of the scenery. watcha gonna do about me?
