

# Nazareth, Runaway

I feel my life is like a stranger in the dark  
So complicated and it's tearing me apart  
It's in my soul all the pain invading me  
Goodbye to romance and the passion sets me free

Take me, break me (Running away, running away)  
Make me (Running away, running away)  
Baby, set me free  
Take me, don't blame me (Running away, running away)  
Save me (Running away, running away)  
Take me now, baby, let me be

Can't stop the pressure of these chains around my heart  
Vindication, domination, ripping us apart  
Don't trust a soul, embrace your fears if you can  
Want no commitment, I'm a dead walking man

Take me, break me (Running away, running away)  
Make me (Running away, running away)  
Baby, set me free  
Take me, don't blame me (Running away, running away)  
Save me (Running away, running away)  
Take me now, baby, let me be

Beyond a barricade a flame that can't be tamed  
Complication, fascination, burning me in flames  
Out of control and suddenly the road is fast  
Lights out a tragedy reflection of the past

Take me, break me (Running away, running away)  
Make me (Running away, running away)  
Yeah I'm all locked up, set me free  
Take me, don't blame me (Running away, running away)  
Save me (Running away, running away)

Take me, break me (Running away, running away)  
Make me (Running away, running away)  
Running away, I've got to get away  
Take me, don't blame me (Running away, running away)  
Save me (Running away, running away)  
Take me, break me, make me, let me be
