

New Order, Tutti Frutti (feat. Elly Jackson)

Tutti frutti
Amore mio
Tutti frutti
No
Non è ancora il momento di entrare.
Non è ancora il momento di...

Life is so crazy these days
I don't know how to adjust
Are we the master or slave?
Do we need passion or lust?

Are we just caught in the days
So many words in a phrase
Life is so crazy these days
Life is so crazy these days

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

I'm paper in your hand
I'm under your command
And I'll never let you go
Cause you're that girl

Tutti Frutti

I had a beautiful dream
For a picture so serene
But I don't know what it means - love
I just want your love

Generation's lost in space
Trying to find the human race
We're living in a state of grace
Where every scholar means a dollar

And sometimes I just can't go on
I feel like I'm a setting sun
I know my eyes are burning bright
I just need you to make it right

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

Tutti Frutti

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place

I always wanna go
You always make me high
Whenever I feel low

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

Whenever I feel low
Whenever I feel low
Whenever I feel low
Cause you're that girl

Tutti Frutti
