New Order, Tutti Frutti (feat. Elly Jackson)

Tutti frutti Amore mio Tutti frutti No Non è ancora il momento di entrare. Non è ancora il momento di...

Life is so crazy these days I don't know how to adjust Are we the master or slave? Do we need passion or lust?

Are we just caught in the days So many words in a phrase Life is so crazy these days Life is so crazy these days

You've got me where it hurts But I don't really care Cause I know I'm OK Whenever you are there You take me to a place I always wanna go You always make me high Whenever I feel low

I'm paper in your hand I'm under your command And I'll never let you go Cause you're that girl

Tutti Frutti

I had a beautiful dream For a picture so serene But I don't know what it means - love I just want your love

Generation's lost in space Trying to find the human race We're living in a state of grace Where every scholar means a dollar

And sometimes I just can't go on I feel like I'm a setting sun I know my eyes are burning bright I just need you to make it right

You've got me where it hurts But I don't really care Cause I know I'm OK Whenever you are there You take me to a place I always wanna go You always make me high Whenever I feel low

Tutti Frutti

You've got me where it hurts But I don't really care Cause I know I'm OK Whenever you are there You take me to a place I always wanna go You always make me high Whenever I feel low

You've got me where it hurts But I don't really care Cause I know I'm OK Whenever you are there You take me to a place I always wanna go You always make me high Whenever I feel low

Whenever I feel low Whenever I feel low Whenever I feel low Cause you're that girl

Tutti Frutti
