

# Niall Horan, New Angel

[Verse 1]

Too many hours in the night  
Every second is about her  
Every thought is wrapped around her  
Too many feelings in the night  
I just need a new distraction  
And I like the way you're dancing

[Pre-Chorus]

I'll give you what's left of me  
'Cause you feel so heavenly  
I don't know what's best for me  
But maybe it's time

[Chorus]

I need a new angel  
A touch of someone else to save me from myself  
I need a new angel  
A touch I've never felt, baby, can you tell that  
Each time I close my eyes, she's in there running wild  
I'm hoping you get her out of my mind  
I need a new angel  
I need a new angel

[Verse 2]

I think I saw you in my dreams  
Didn't know what I've been missing  
'Til you walked in like a vision (Ooh)  
You give me something out of reach  
Just keep doing what you're doing  
'Cause you move me when you're moving

[Chorus]

I need a new angel  
A touch of someone else to save me from myself  
I need a new angel (I need a new one)  
A touch I've never felt, but baby, can't you tell that  
Each time I close my eyes, she's in there running wild  
I'm hoping you get her out of my mind  
I need a new angel  
I need a new angel

[Bridge]

I'll give you what's left of me, left of me  
'Cause you feel so heavenly, heavenly  
I'll give you what's left of me  
'Cause you feel so heavenly  
I don't know what's best for me  
But maybe it's time

[Chorus]

I need a new angel  
A touch of someone else to save me from myself  
I need a new angel  
A touch I've never felt, but baby, can't you tell that  
Each time I close my eyes, she's in there running wild  
I'm hoping you get her out of my mind  
I need a new angel (I need a new angel)  
I need a new angel  
Angel
