

Niall Horan, Small Talk

[Verse 1]

She's been lookin' at me all night
I'm terrified, I know why, baby
She's got the wrong□crazy
Oh,□ see the□moon in her eyes
I'm paralyzed, she's□hot my baby
She's got the wrong crazy

[Pre-Chorus]

Like wolves, we run wild, let passion get too much
Let ourselves get burned by the fire
We're walking on a wire, but nothin' feels higher
When I see that look in your eyes

[Chorus]

Tell me what you want because you know I want it too
Let's skip all the small talk and go straight up to your room
I've been thinkin' what I'd do when I'm alone with you
Just say nothin', small talk only gets in the way

[Verse 2]

Turn around, she walkin' to me
I can't believe she's not my baby
Won't someone come see me?
Oh, you see the fool in my mind
Can't run and hide with your stare on me
Look what you're doing to me

[Pre-Chorus]

I wanna run wild, let passion get too much
Let ourselves get burned by the fire
We're walking on a wire, but nothin' feels higher
When I see that look in your eyes (Ayy, ayy)

[Chorus]

Tell me what you want because you know I want it too
Let's skip all the small talk and go straight up to your room
I've been thinkin' what I'd do when I'm alone with you
Just say nothin', small talk only gets in the way

[Post-Chorus]

Just say nothing
Oh, oh, small talk
Just say nothing
Oh, no

[Bridge]

Like wolves, we run wild, let passion get too much
Let ourselves get burned by the fire, yeah

[Chorus]

Tell me what you want because you know I want it too
Let's skip all the small talk and go straight up to your room
I've been thinkin' what I'd do when I'm alone with you
Just say nothin', small talk only gets in the way
Tell me what you want because you know I want it too (You know I want it too)
Let's skip all the small talk and go straight up to your room (Straight up to your room)
I've been thinkin' what I'd do when I'm alone with you
Just say nothin', small talk only gets in the way

[Outro]

Just say nothing, oh, oh
Oh, oh, small talk (If you want it)
Just say nothing (You can have it, yeah)

Oh, no, small talk
