

Nick Cordero, Live Your Life

This hurts like hell but it feels right
Far's i can tell you've made your mind
I'll wish you well
But won't be on the other side
Biding my time
Live your life

You've got your plans
I've got mine
Who understand how stars align
If one's shooting past then i'll consider it a sign
That you're still alive
Live your life

And it's alright
Live your life
Like you've got one night
Live your life

I learned the rules from a friend of mine
Don't suffer fools and you'll be fine
Just be yourself
You might get slapped like it's a crime
Don;t bat an eye
Live your life

cause it's alright
Live your life
Like you've got one night
Live your lif
