Nicki Minaj, Masquerade

Feel the beat of the drum
Move like ya really wanna be number 1
You can beat out the comp
Run like ya really wanna be at the top
Adrenaline rush 'cus...
You have been identified as a hustla'
Topic of the discussion but beat it like a percussion
And chuck the deuce up and tell 'em it's just love

Damn diggity-dog
Let them bums stay mad 'cus we livin' it up
Shelltops is on
And I'm popping like, I'm popping like, I'm popping some corn
And now
I don't wanna take you if we fall down
Don't get upset
And now, is just the beginning
And we'll figure it out somehow

Right now, masquerade
Master the merry go round
Right now, masquerade
Master the merry go round
Right now...
It's something you create
It's never ever too late
It's never ever too late
Right now...
Okay to make a mistake
Yeah baby this is your day
It's time to masquerade

Face it, face it
Full of bass in ya face
Hit the finish line
First place in the race
Yes
King Kong on ya chest
Running and I'm coming to baton to ya left
Yup
You can be who you want
Be who you is
Never be what you aren't
Never, never fold under pressure
Desperate times get desperate measures

Damn diggity-dog
Let them bums stay mad 'cus we livin' it up
Shelltops is on
And I'm popping like, I'm popping like, I'm popping some corn
And now
I don't wanna take you if we fall down
Don't get upset
And now, is just the beginning
And we'll figure it out somehow

Right now, masquerade
Master the merry go round
Right now, masquerade
Master the merry go round
Right now...
It's something you create
It's never ever too late
It's never ever too late

Right now...
Okay to make a mistake
Yeah baby this is your day
It's time to masquerade
