Night Lovell, Dark Light

[Verse]

And I come back (And I come back)

Niggas tryna flex (Niggas tryna flex)

Tell me that I'm lost, I'm located in the back though Don't even wanna check (Don't even wanna check)

Niggas still wanna call it a day

Approach me, ain't got shit to say

Talkin' to me like you wanted to stay

When it come back around and you still tryna play (You still tryna play)

Go and break it down for a nigga

Go and break it down just a little

Had love for a nigga

But they steady playin' games with a nigga

Steady throwin' names for a nigga

One time for you niggas

And I'm goin' with my stash (Stash)

Tryna make it last (Last)

Thoughts overflow like they did in the past

And with me, they still tryna ask (They still tryna ask)

Fuck you wanna know 'bout me?'

Fuck a nigga' bitch off a 40 oz

Shit, I keep it low-key

Many people sayin' that they know it

Like there's plenty of that shit I ain't see

Catch me overseas in a fuckin' white tee

Bitches say, "Lovell, man, I really want the D"

Niggas say, "Lovell, man, I really wanna see" (I really wanna see)

You all know 'bout me

[Chorus]

Stress keeps buildin'

Blood stops flowin'

Brain got me open

Gone off a potion

Stress keeps buildin'

Gone off a potion

[Outro]

Stress keeps buildin'

Stress keeps buildin'

Gone off a potion

Gone off a potion

Gone, gone off a potion
