D.A got that dope!

Look side to side who gon' ride for me  
We'll take a ride if you down for me  
Real eyes realize who gon' lie to me  
Wipe tears, don't cry, just glide with me  
Look side to side who gon' ride for me  
We'll take a ride if you down for me  
Real eyes realize who gon' lie to me  
Wipe tears, don't cry, just glide with me

Aye

One love, one heart, you gotta take it from me  
If one dove fall apart then they all comin'  
I heard birds flock together but it's quite funny  
Every bird that was 'round only wanted money  
Separated from leeches, niggas thought that I couldn't see it  
If I'm lonley the rest of my life then niggas so be it  
Came in this world by myself, I knew that shit as a kid  
Ain't no two men casket when you close that lid  
I ain't no killer but don't push me, wait  
I don' killed a couple of these pussy niggas though  
Ain't gotta glorify that shit no more cause I had to grow  
Still cut a nigga throat if you play with my family or my dawg  
I got some family members doin' dope  
My uncle nem be doin' coke  
Cuh ne up the road facin life, I pray they let him go  
The system got him up in a chokehold tappin' out cold  
Only thing I can say is stay strong cause you comin' home

Look side to side who gon' ride for me  
We'll take a ride if you down for me  
Real eyes realize who gon' lie to me  
Wipe tears, don't cry, just glide with me  
Look side to side who gon' ride for me  
We'll take a ride if you down for me  
Real eyes realize who gon' lie to me  
Wipe tears, don't cry, just glide with me

Kinda hard to turn up when you know your homie gone to the system or became a victim to a dirty  
Got me thinking 'bout putting a nigga up in critical  
But I know how many people depending on me like minerals  
Hard on my team like I'm Brady, without me they hyperventilating  
I know maybe I gotta be concentrating on keeping this shit afloat for my momma and only baby  
Hope you hear me when I say it  
You either at the table or you on the menu  
Dem boys be food to me, keep a toothpick pickin' in my teeth  
Keep a pistol by my brief in case yeen die in the pot  
Then I gotta up this bitch and make sure that you boys decease  
Last but nos least  
I'm a different type beast  
Up all night, I ain't sleep cause I'm hungry  
Not for a mill but for the shit I deserve  
If a nigga beg to differ tell that nigga come and see 'bout me

Look side to side who gon' ride for me  
We'll take a ride if you down for me  
Real eyes realize who gon' lie to me  
Wipe tears, don't cry, just glide with me  
Look side to side who gon' ride for me  
We'll take a ride if you down for me  
Real eyes realize who gon' lie to me  
Wipe tears, don't cry, just glide with me
