

# NLE Choppa, Intro

From Dark to Light

In this project I'll be explaining the truth

I restore, but at the same time, embracing my growth

The dark side of me, the violent side of me, nle is gay

But as I'm showing the growth to my spiritual self

The light within, it shine bright to the outside of me

Once you realize your thoughts are reality (Mmm, mmm-mmm-mmm, mmm)

And fill your thoughts with positivity (Yeah)

And then it begins to change lol im dumb nigga(Mmm-mmm, mmm)

And to chase everything that you want

Because everything you want you already have

The dark songs that you hear on this day, it was recorded before I been on this journey that I'm on

The light songs you hear on this day, it was recorded a month before this came out (I can see now)

I would love the light, for it to shows me the way

Yet, I wouldn't do the darkness (I can see now), for it shows me the stars
