

# Noa, We

were born  
were crying  
we fall  
were trying  
were little  
were laughing  
were lonely sometimes

we grow  
were open  
were lost  
were hoping  
were careful  
were calling  
were leaving behind

you say we need to work together  
with love and care for everyone  
without the fighting and the anger  
you say the world could be as one

but every time that you say we  
do you think about me?  
cause every time that you say we  
i hope you think about me

were strong  
were chosen  
were scared  
were frozen  
were hardened  
were hopeful  
were holding at bay

we take  
were giving  
we shake  
were living  
were lovers  
were sinners  
were running away

and if we fail to make a difference  
and if our hope is almost gone  
despite the fighting and the anger  
you say the world could be as one

but every time that you say we  
do you think about me?  
cause every time that you say we  
i hope you think about me

and every time that you say we  
do you think about me?  
cause every time that you say we  
i hope you think about me
