

# Noah Cyrus, Lil Xan, Live or Die

on our way to the sky  
we're gonna look down on tonight  
2 heartbreak soldiers

when lay by my side  
I see the whole world through your eyes  
ride or die  
you and i

live or die  
live or die  
got you and i  
got you tonight  
live or die  
live or die  
got you and i  
got you tonight

have you ever seen a red flower  
have you ever seen a gold tower  
came from a broken home parents never saw  
now I'm living all alone taking care of us all  
flashes in my face  
I guess that's what u get with all this fame  
just because they say you gang does not mean that you're really gang  
weather changes with my mood  
it never really stays the same  
and one plus one is 2  
and without you I think I'd go insane  
and what you think  
pause  
let it sink in  
they threw me in and now I'm drowning in the deep end  
if I'm religious you're the one that I believe in  
you been here with me to help me fight all my demons

on our way to the sky  
we're gonna look down on tonight  
2 heartbreak soldiers

when lay by my side  
I see the whole world through your eyes  
ride or die  
you and i

live or die  
live or die  
got you and i  
got you tonight  
live or die  
live or die  
got you and i  
got you tonight
