

NOFX, California

Don't want a theocracy
Don't want to share my economy
Fuck that shit about sea to shining sea

I want out of the U.S.A.
But i don't wanna leave C.A.
Jonathan Christ said it best first

Let California stand alone
From Eureka to El Cajon
Fuck the forty-nine
We want our state to be left alone

I don't care where you were born
You're not part owner of California
