

Norah Jones, Wintertime

I'm alone, but I feel alright
In the summertime and the fall
In the spring when the house is dark
Doesn't bother me at all

i know /2x
it's in the light
the shadows start to move
there's a hurt in the wintertime
makes it hard for you

there's a dream, a dream I had
that makes me sad on the road
the sun keeps running from
everyone I love

i know /3x
I am leaning /2x
on you
it's hard
I know /2x
there isn't much that you can do

i know /3x
I'll make it /2x
through
in the wintertime there's a candlelight
I only get from you

i know /2x
it's only light to you
but there's a thing called the wintertime
I can't make it through

i know /3x
I am leaning /2x
on you
it's hard
I know /2x
there isn't much that you can do

i know /3x
I'll make it /2x
through
in the wintertime there's a candlelight
I only get from you
