Norah Jones, Wintertime

I'm alone, but I feel alright In the summertime and the fall In the spring when the house is dark Doesn't bother me at all

i know /2x it's in the light te shadows atart to move there's a hurt in the wintertime makes it hard for you

there's a dream, a dream I had that makes me sad on the road the sun keeps running from everyone I love

i know /3x I am leaning /2x on you it's hard I know /2x there isn't much that you can do

i know /3x I'll make it /2x through in the wintertime there's a candlelight I only get from you

i know /2x it's only light to you but there's a thing called the wintertime I can't make it through

i know /3x I am leaning /2x on you it's hard I know /2x there isn't much that you can do

i know /3x I'll make it /2x through in the wintertime there's a candlelight I only get from you
