

Ola, Everything I Am

For all the love that we share
For every moment, every time you're there
You make it easy, every step of the way
For all the love that we share
For all the joy that you bring
for all the good times, all the special things
You make it easy, like a natural thing
For all the joy that you bring
And if I'm lost, if I fall behind
I trust in you to make me come alive
You show me everything I am
No doubt about it
Now my heart is in your hands
You show me everything I am
How to understand
'Cause with you can be everything I am
For all the things that we do
Any little flavour, what you want me to
I'll make it easy, just call out my name
Baby, I can do it for you
And if you're down, if you hit the ground
Just trust in me to make you come alive

You show me everything I am
No doubt about it
Now my heart is in your hands
You show me everything I am
How to understand
'Cause with you can be everything I am
You should know
I'm doin' everything I can
I work so hard to make your dreams come true
It's all for you Together we can keep our love alive
Tryin' hard, give it all
'Cause you make me all I am
You show me everything I am
No doubt about it
Now my heart is in your hands
You show me everything I am
How to understand
'Cause with you can be everything I am
You show me everything I am
No doubt about it
Now my heart is in your hands
You show me everything I am
How to understand
'Cause with you can be everything I am
