

# Ola, Invincible

The same old love song is playing tonight on every station,  
but youre not around  
I should have told you the way I feel  
How you complete me,  
whenever you are near  
I wish that I had only seen the signs  
I didnt know my life would change that night  
We were invincible,  
we were one of a kind  
Now the dream is all that I have  
but I remember when we were invincible  
My friends keep saying,  
its time to move on  
There will be others,  
though you are gone  
But baby its so hard to let you go  
When I remember the way we used to be  
We could last for ever and a day  
Baby come on back,  
lets find a way  
We were invincible,  
we were one of a kind  
Now the dream is all that I have  
but I remember when we were invincible  
I let you slip away from me  
Now I know that I was wrong cause only you can play that part  
We are invincible  
I know that only you can play that part  
[Youre the one  
I know that we should never be apart  
[Youre the one  
And in the years to come well find a way  
If you only would stay  
We were invincible,  
we were one of a kind  
Now the dream is all that I have  
but I remember when we were invincible
