Old Man River, La

The sun's coming up in the sky I'm watching the birds passing on by It makes me wanna cry It makes me wanna cry

La la

I'm lying face upon the ground Watching the clouds running around It makes me feel so high It makes me feel so high

La la

La la la la (la la la la) La la la la (la la la la) La la la la (la la la la)

La la la la (la la la la) La la la la (la la la la) La la la la (la la la la)

One day this trip will surely end And there's no need to start again One day this trip will surely end And there's no need to start again

so leave it all behind (leave it all behind) leave it all behind (leave it all behind)...
