

Omar Apollo, Invincible (feat. Daniel Caesar)

If I were to go
Tell me would you
Notice me
If I were to go
Tell me would you
Notice me

24hrs after CS:01 release
I miss my girl it's time to hit the streets
I went to check my doc get some vitamin C
You won't believe what happened to me, I

Drip drip drip with the cold IV
Out of consciousness if I ever slip it

and I woke up in an ambulance

If I were to go tell me would you notice me
If I were to go tell me would you notice me

64 hours since my baby spoke to me
He kissed me now I love his dopamine
I tried go to sleep but my brain on 2cb
You won't believe what happened to me, I
Drip drip drip with the cold iv
Out of consciousness if I ever slip it

I been gone moving, high speed now
That's my song let me hear that bounce
Latin boy Frida Khalo brow
Jacquemus jeans Ferragamo brown
Venetian walls with porcelain tiles
286 Donnie Darko town
If I'm down would you help me out
If I'm down would you help me out

I had to call you back to tell you that (call me back)
You could have spared my feelings (could have spared my feelings)
I'm not invincible, I'm not invincible (oh)

I had to call you back to tell you that (call me back)
You could have spared my feelings
I'm not invincible (I'm not invincible) I'm not invincible

If I were to go tell me would you notice me
If I were to go tell me would you notice me
If I were to go tell me would you notice me
