

# OMI, Stir It

I know what I want  
And I want it right now, right now  
I know what I need  
And I need right now, right now  
'Cause you're looking at me  
Like you thinking to do  
I don't see nobody here (nobody)  
But us two

We can stir it all night  
Girl your body so tight  
We can stir it all night  
You can follow back now  
Don't want nothing back now

We can stir it all night  
Girl your body so tight  
We can stir it all night  
You can follow back now  
Don't want nothing back now

I'm making you hot  
I'ma give it to you right now, right now  
I know what you got  
And I want it right now, right now  
Uh, let me put it on you, aha  
'Cause I know I could do  
I don't see nobody here (nobody)  
But us two

We can stir it all night  
Girl your body so tight  
We can stir it all night  
You can follow back now  
Don't want nothing back now

We can stir it all night  
Girl your body so tight  
We can stir it all night  
You can follow back now  
Don't want nothing back now

Oh let me hear you say, oho  
Oh let me hear you say, oho  
Hey give it to me now  
And let me put it on you  
Yes I know what to do  
Ain't nobody here (nobody)  
But us two

We can stir it all night  
Girl your body so tight  
We can stir it all night  
You can follow back now  
Don't want nothing back now

We can stir it all night  
Girl your body so tight  
We can stir it all night  
You can follow back now  
Don't want nothing back now
