## Overkill, Undying

Wake up baby, daddy's comin' to crack your skull in two Hit you like a hammer baby, down the play a fool

No to the kicking! No more to say! No having just one meaning! Nothing left to say No way

Surface the anger Through immortality Should you be, undying? You never were, undying

Wake up break down daddy's comin', all you heard is true So bite your lip and shut your mouth, it's no longer up to you

No to the licking! No more to say! No leavin' you alone... Nothing more to say! No way! no

Surface the anger Immortality Should you be, undying? Undying

No! for! give! ness! No! more! to! say! No way... no

Surface the anger Immortality You never were, undying? Undying Undying, never be undying You never were, undying You never seem, undying How can you be? undying...
