

Oxford Drama, Teal

I know that you don't like
every time when I
I say that I miss you
I say that I miss you
all the time

but baby I feel secure
let's look what's inside
and after every single fight

close your eyes
and you'll see
you and me
in Manhattan
and take me by the hand
you will understand
I don't want to go

I know that you don't like
every time when I
I beg you for another day
(gotta be above it)
to keep them all away

I know that you like it
I know that you do
and it drives you insane
I know that you like it
I know that you do

close your eyes
and you'll see
you and me
in Manhattan
and take me by the hand
you will understand
I don't want to go

close your eyes
and you'll see
you and me
in Manhattan
and take me by the hand
you will understand
I 'm not going anywhere
