## Ozzy Osbourne, You Said It All

Well I got a funny feelin' But I'm gonna stay cool Something's tellin' me I'm gonna break all the rules, Let me tell ya I'm not insecure, But I got an empty felling that you've got the cure (chorus) You said it all, you've got to stay Too proud to fall, no more to say Well I'm feeling sober but I'm high on the throne, Like a demon sick and sick and tired of being alone, I've made a bed that is hard to lie in, But if lovin' you is wrong, I can't do nothing but sin (repeat chorus) Let them hang me They would if they knew Even half the things I've been doing with you Walk me to the gallow and drop me to the floor Watch me swingin' and I still want you more (repeat chorus)
