

# P.O.D., Wildfire

Come and give me that wildfire  
The uncivilized sound that I love  
The primitive ragga blaze style  
Consciousness vibes I and I know  
The untamed flame that I desire  
Me want uncultivated Jah glow  
Foolish intensity, versatile  
Fly the spirit high, take me higher

[Chorus:]  
One leads with the passion  
The righteous will burn again  
One bleeds everlasting  
Tribal fire will never end  
[repeat]

I want to feel that wildfire  
Irregular burning of the sun  
Shining through make you spit fire  
Savage combustion, let it go  
Impetuous fervor testifier  
Outlandish passions I know  
Crucial rhythms no denial  
Musical nation, empire

[Chorus]

[repeat chorus]
