Pain, Go With The Flow

I can't see clear, but my mind don't mind
Rolling down the street, rolling down to downtown
I've been living in the past where we don't exist
Memories are shallow and they just don't mean shit

Go with the flow
Just go with the flow

You can sit and wait for the storm to pass
Or learn how to dance in the wind with class
Hate all you want, but you won't get far
You gotta brush it off and act like a superstar

Go with the flow
Just go with the flow

Oh, no, you can't bring me down
I'm high as a kite
Wake up, you got to let go
And go with flow

Go with the flow
Wherever you go
Just go with the flow
And let yourself glow

Oh, no, you can't bring me down
I'm high as a kite
Hold on, open your mind
And go with the flow
