

Palma Violets, DANGER IN THE CLUB

Weight in my voice, such a man
Change the sound of a distant screaming
All the days that I loved before
Have I ever needed you

Give up, /4x

But he's the danger in the club
He's the danger in the club

Where were you when I needed you
Hold me tight when pistol slap up
All the days when it rained in my soul
All of those were fiending you for

Give up, /4x

But he's the danger in the club
He's the danger in the club

Fall down or jump
To completion,
It's the thing!

We can go outside
I think it stopped raining
