

Paulina Rubio, Casanova

Dark sexy skin, my passion begins
You're the center of my obsession
Watching you dance in your leather pants
My eyes see a true perfection

And I'm hypnotized by the rhythm of your hips
It's hard to hide and I can't resist

It's about your kiss
It's about your lips
It's about the way you move your body
It's about your style
That drives me wild
It's the sexy things you're doing

Come and dance with me tonight
Feel the rhythm deep inside
Touch me now
You can be my casanova

It's about your kiss
It's about your lips
It's about the way you move your body
It's about your style
That drives me wild
It's the sexy things you're doing

Come and dance with me tonight
Feel the rhythm deep inside
Touch me now
You can be my casanova

I cross the room
He smell my perfume
Mi amor, a serious danger
Temperatures rising
And I'm fantasizing
Making love to a beautiful stranger

My passions alive
I'm feeling so high
It's not the champagne
That's driving me insane

It's about your kiss
It's about your lips
It's about the way you move your body
It's about your style
That drives me wild
It's the sexy things you're doing

Come and dance with me tonight
Feel the rhythm deep inside
