

Pennywise, All We Need

We take his life and each day we try
And we all believe, but we can't agree
You get the life you choose
But nothing you can use
We could pray all day, but things won't change
And it's all we need to make us believe
Don't fight - you'll never win
So try - you'll so give in why
But why - you'll never know something you'll never know
Hate - you can't believe
Wait - we'll never see
Change - a little less tragedy
Is all we need

We choose to hide what burns inside
We isolate and recriminate
We all want something more
A life worth fighting for
Gets washed away
Cause things won't change
It's all we need to make us believe
Don't fight- you'll never win
So try - you'll soon give in
But why - you'll never know something you'll never know
Hate - you can't believe
Wait - we'll never see
Change - a little less tragedy
Is all we need

We all go to a place we hide
You want out wanted out dead or alive
It's your life your philosophy
It's your dose of reality and
It's all we need
To make us believe
Don't fight - you'll never win
So try - you'll so give in why
But why - you'll never know something you'll never know
Hate - you can't believe
Wait - we'll never see
Change - a little less tragedy
Is all we need
