

# Pennywise, Gone

I'm falling down, I'm staggering  
I'm here and then I'm gone  
And if you try to find me  
I'm nowhere to be found  
I'm in somebody's shadow  
In someone else's dream  
I'm in your girlfriend's mind  
As funny as it seems  
I'm here and then I'm gone  
Sometimes I pass right through you  
When you're down at memory lane  
Sometimes it's only me in there  
That causes you great pain  
When you gonna realize  
When you gonna face  
All you and me went through was  
A pleasant little phase  
I'm gonna find you  
When you least expect me to  
You'll never find me  
Unless I want to be
