

# Pennywise, It's Up To Me

Held down by a heavy sky  
I followed rules and I don't know why  
Ignored the options that I could not see  
Indecision had a hold of me  
Followed the path that was forced by fate  
I never saw the hour was getting late  
I never cared what I turned out to be  
I sensed something wrong now it's up to me  
I got the chance now I'm gonna take it  
I don't know I might not even make it  
I'll follow rules that are made up by me  
I wasted time too long now it's up to me  
It's up to me-to be all I can be (R.W. Emerson)  
It's up to me  
Looked to the past for some history  
Looked for the sum of humanity  
A list of laws they passed down through time  
A ruthless plot to control my mind  
I gotta make a plan for myself  
Can't look to you can't look to anybody else  
Only this way am I truly free  
I wasted time too long now it's up to me  
all the rules that I see  
have taken hold inside of me.  
So much to lose so many kinds  
One thing comes to mind-time  
I gotta make a plan for my life  
I gotta take the time to get it right  
I gotta be the person I gotta be  
I gotta make a plan and now  
it's up to me
