Pennywise, Set Me Free

Life is a lesson you can only learn for free and time keeps on slippin' like a faded memory

And I got the answers starin' right in front of me, time heals my soul Set me free, set me free, set me free I stand about, face my mission, you don't know what you've been missin'

There is a reason for all that comes to be My troubled life riddled with dark insanities I need solutions through the pain that surrounds me, time heals my soul

Set me free, set me free, set me free I stand about, face my mission, you don't know what you've been missin'

Life is a lesson you can only learn for free and time keeps on slippin' like a faded memory

And I got the answers starin' right in front of me, time heals my soul

Set me free, set me free, set me free
