

Pennywise, Try To Conform

try - still you got nowhere
try and stay in line
and live by all the rules
they say to follow
try to conform in your head
they'll feed you bullshit
you should swallow
try their style don't give up
you will blend in
it's not tough to give up
when you've tried to try for so long
I can't wait to assimilate
just try to stop me
(you willing try)
but you don't know
pick yourself up by those boot straps dude
and try
try still you get nowhere
try and stay in line
and other forms you'll never know
and if you got something to say
I got a shotgun for a muzzle
try their style don't give up
you will blend in
just try to conform
it doesn't feel the same
