

# Pentatonix, The Lucky Ones

That small town  
Was gettin' me down  
Don't stand out  
You'll get kicked around

Put up a wall so tall  
You're safe there  
Time went by  
Got so insecure  
Go run, hide  
So you don't get hurt  
Don't face your pain  
We'll do that later

So I drove all night  
And I never looked behind me  
Knew I'd be alright  
Even when the nights got blinding

Look how far we've come  
And it was all unexpected  
We were broke and we were young  
But somehow we stayed connected  
So we hold on to our better day

Cause easy come  
Easy go away

Still can't believe we were the lucky ones  
Look how far we've come
