

# Pet Shop Boys, Fugitive (Richard X Extended Mix)

Now is the time of our lives  
But it won't last long  
We're strong and in spite of the fight  
You sing this song

It's always a new day in heaven  
There's always a new way to heaven

You my brother  
I'm really gonna miss you  
You my brother  
You're gonna take me with you  
You my brother

Forever

Where do we stand in this land  
We're invisible now  
Clean and prepared to elect  
Indivisible

It's always forever in heaven  
We'll all be together in heaven

You my brother  
I'm really gonna miss you  
You my brother  
You're gonna take me with you

We'll be together now and forever  
We'll be together now and forever

I know that it won't be that long  
Until the hour  
Free and released from the world  
It feels like power

You my brother  
I'm really gonna miss you  
You my brother  
You're gonna take me with you  
You my brother (It's the time)  
I'm really gonna miss you  
You my brother (It's the time)  
You're gonna take me with you
