

# Pet Shop Boys, Luna Park

(Tennant/Lowe)

Shadows on the sun  
Another night's begun  
It's always dark  
In Luna Park  
Wind across the moon  
Electric storms and soon  
A flying spark  
In Luna Park

And when we're getting higher  
We're happy  
Somebody's eating fire  
We're happy  
The big wheel in the sky  
Will make you scream

Come on, join a line  
The ghost train leaves on time  
It's always dark  
In Luna Park  
On the shooting range  
The plastic prizes never change  
So make your mark  
On Luna Park

And when we're getting higher  
We're happy  
Somebody's eating fire  
We're happy  
The big wheel in the sky  
Will make you scream

Thunder. I wonder?  
A storm will come one day  
To blow us all away  
Like dust on the moon  
In Luna Park  
It can't be dark  
Too soon

A storm is coming soon  
Like dust on the moon

Every night we go  
To the latest horror show  
And hear the screams  
In Luna dreams  
Fortune-tellers muse  
On palms that bode bad news  
The future's dark  
In Luna Park

And when we're feeling scared  
We're happy  
With circuses and bread  
We're happy  
The whirling fair machines  
Are all we need

Thunder. I wonder?  
A storm will come one day  
To blow us all away

Like dust on the moon  
In Luna Park  
It can't be dark  
Too soon
