

Pet Shop Boys, Monkey business

[Chorus: Neil Tennant]

I'm looking for monkey business
Monkey business
Just playing around
I'm here on monkey business
And look what I found
Look what I found

[Verse 1]

Everybody get on board
I'm back in town
Monkey business
And I'm not leaving
'Til the last joint has shut down
People tell me I'm a legend
Round these parts
I start the party
And I end up breaking hearts

[Pre-Chorus: Neil Tennant]

Bring me margaritas
Champagne and red wine
We're gonna have a party
Where we all cross the line

[Chorus: Neil Tennant]

I'm looking for monkey business
Monkey business
Just playing around
I'm here on monkey business
Monkey business
And look what I found
Look what I found

[Interlude: Chris Lowe]

I'm here on funky business
Just playing around
I'm here on funky business
Look what I found

[Verse 2: Neil Tennant]

There are diamonds in the sky
That shine for me
Gonna pick them one by one
I guarantee

[Interlude: Chris Lowe]

I'm looking for monkey business
Just playing around
I'm here on monkey business
Look what I found
Just playing around

[Verse 3: Neil Tennant]

Flew in from the city
Just got into town
Checked into a new place
I can't seem to settle down

[Chorus: Neil Tennant]

I'm looking for monkey business
Monkey business
Just playing around

Look what I found

[Pre-Chorus: Neil Tennant]
Bring me margaritas
Champagne and red wine
We're gonna to have a party
Where we all cross the line

[Chorus: Neil Tennant]
I'm looking for monkey business
Just playing around
I'm here on monkey business
Look what I found

[Outro: Neil Tennant]
Monkey business
