

Pet Shop Boys, Positive Role Model

Here we are
where we were
back on everything
Went too far
now we're fine
back on everything
So much for making it day by day
Back on everything
Instead of taking another way
we're back on everything

I want a positive role model
I want a positive role model

My reflection on the street
Is that the way I walk?
Introspection as I speak
I need to change the way I talk
In a changing world
there's so much you could be
Why can't you choose your self
like your enemy?
Have you ever imagined
a new you?
I could be someone else
Somebody new

Reinvention:
my intention

I want a positive role model
I want a positive role model
I want a positive role model
I want a positive role model
