

# Pet Shop Boys, You've Got To Start Somewhere

I know it's tough but it's not enough to walk away  
All you've ever wanted from life is here today  
It may feel dark but you've got a spark to light the night  
Deep inside is nowhere to hide, you've got to fight

Don't walk away  
This is your day  
Play the part  
You've got to start somewhere  
Take control  
It's your soul  
And in your heart  
You've got to start somewhere

You're much more cool than all the state school kids out there  
You exude the right attitude and you don't care  
You've been refused and so you're confused  
You want to hide  
So express yourself to impress  
I'm on your side

Don't walk away  
This is your day  
Play the part  
You've got to start somewhere  
Take control  
It's your soul  
And in your heart  
You've got to start somewhere

Look at me  
We all make mistakes  
With love affairs that end in heartaches  
But if you think you've got what it take  
It doesn't have to be this way

I've been there too and all I could do  
Is act like a jerk  
Now I've begun to see what I've done  
I'm gonna make it work

Don't walk away (we make mistakes)  
This is your day (We feel heartaches)  
Play the part (You've got what it takes)  
You've got to start somewhere  
Take control (we make mistakes)  
It's your soul (we feel heartaches)  
And in your heart (You've got what it takes)  
You've got to start somewhere  
You've got to start somewhere  
You've got to start somewhere
