

# Pink, Kids In Love (feat. First Aid Kit)

I've sat at the bleachers  
Watching life unfold  
I've been a bystander  
To a sight to behold

I've played the victim  
I'm the one who let it burn  
If you don't fuck up  
Well then you'll never learn

And I've been ruminating  
Things I never said

We used to chase the sun  
We used to have our fun  
We were two young fools, oh kids in love  
Before your change of heart  
Before it all got dark  
We were two young fools, oh kids in love

Oh I-I-I'm still living there  
This time I'll make it last

Now you're the perfect father  
To kids that aren't mine  
Saw you got married  
So handsome in your suit and tie

And you couldn't help me  
I'd make it up to you  
If you were by my side

And I've been ruminating  
Things I never said

We used to chase the sun  
We used to have our fun  
We were two young fools, oh kids in love  
Before your change of heart  
Before it all got dark  
We were two young fools, oh kids in love

Oh I-I-I'm still living there  
This time I'll make it last

And I will never give up  
You will never know  
I'll keep living in my mind still  
Where our love grows old and just goes on and on and

We used to chase the sun  
We used to have our fun  
We were two young fools, oh kids in love  
Before your change of heart  
Before it all got dark  
We were two young fools, oh kids in love

Oh I-I-I'm still living there  
This time I'll make it last
