

# Pink, Unwind

I hide my pain like the rest of them  
That's why I'm always laughin  
I'm troubled, I'm brilliant and miserable too  
That's why I'm so funny  
I swallow down all my fears  
With a bottle made of silver  
I've only been here for 27 years  
But already my life is over

[Chorus]  
And I need to unwind, yes, and I  
I need to unwind, yes, and I  
Want all the time  
to be loved, to unwind

My life is like a fairytale  
That nobody believes in  
I can't remember anything  
Not the people, not the places I've been  
Just one more day you can make it, babe  
!That's what I tell myself  
And everything that I love in life  
It is killing me, Cause it's bad for my health

[Chorus]

Somebody comfort me  
S... Southern comfort me

[Chorus]
