

Pink, Walk Me Home

there's something in the way you roll your eyes
takes me back to a better time
when I saw everything is good
but now you're the only thing that's good

tryin' to stand up on my own 2 feet
this conversation ain't comin' easily
and darling
I know it's getting late
so what do you say
we leave this place

Walk Me Home
in the dead of night
I can't be alone with
all this on my mind
say you'll stay with me tonight
because there's so much wrong
going on mow outside

there's something in the way I wanna cry
that makes me think we'll made it out alive
so come on and show me how we're good
I think that we could do some good

Walk Me Home
in the dead of night
I can't be alone with
all this on my mind
say you'll stay with me tonight
because there's so much wrong
going on mow outside

Walk Me Home
in the dead of night
I can't be alone with
all this on my mind
say you'll stay with me tonight
because there's so much wrong
going on mow outside

Walk Me Home
in the dead of night
I can't be alone with
all this on my mind
say you'll stay with me tonight
because there's so much wrong
there's so much wrong
there's so much wrong
going on mow outside
