

# Pipedown, Monster

STAY, STAY FOCUSED

There's no time to be outside yourself  
Don't let them ever tell you  
You can't acknowledge doubt

I think we've had enough  
Make me sick 'til I've had enough

HATE, PAIN

Things I'd like to live without  
But now the demons in me  
Are there and they won't come out  
They are the ones that keep you, distract you  
From your home  
And while you're filled with anger  
You will only stand alone

I think we've had enough  
Make me sick 'til I've had enough

Don't waste away  
The ends not far away  
Don't kid yourself  
Your hatred lies with no one else - NO

STAY, STAY FOCUSED

There's no telling of what you might see  
But always please remember  
The monster is not me
