

Pixie Lott, A Real Good Thing (Ft. Shaggy)

[Shaggy:]

Baby girl, you're always on my mind now everyday
I can't wait to love you, wanna hold you, wanna wait
I'll do anything now in my power to make you stay
Baby girl, just stay with me and you're set, you're set
Baby girl

I see that boy, he does something to my chemistry
I'm bend, I'm close I'm sure
He'll raise my temperature by three degrees
He says: everyday, everyday, and every way she makes my motor turn
("I'm gonna make your motor turn")
And I reciprocate, my life I dedicate to lovin' her

For we've gotta good thing going
A real good thing going,
Yes, that boy and me
And I don't have to ask
I know that it's gonna last eternally

[Shaggy:]

(...)

Understanding, whenever, I hadn't have any alibis
(Talk to me girl)
So you know watcha do, where you been
So what's the use in tellin' lies, in tellin' lies)

For we've gotta good thing going
A real good thing going,
Yes, that boy and me
And I don't have to ask
I know that it's gonna last eternally
/2x
(Good, good, good girl!)

For we've gotta good thing going
A real good thing going
Yes, that boy and me
That boy, that boy and me!
