

# Plain White T's, A Little Less Alone

I can't get you off my mind, laying here by myself  
I can't get you off my mind, I can't think of anything else  
The way we spent the whole day laughing, running 'round the city  
You wake up with no makeup and somehow, you look so pretty

At least for one second, it made us feel

A little less alone  
A little less alone

I go to sleep alone tonight, maybe you'll do the same  
I go to sleep alone tonight, got no one but myself to blame  
The way we spent the whole night drinking, dancing like we mean it  
And in the morning, we both had that look like, were we dreaming?

At least for one second, it made us feel

A little less alone  
A little less alone

It was the perfect love we gave to each other  
But when the timing's wrong, we both have to suffer  
And now I gotta suffer without you  
Forget all the things I loved about you  
I hope that when someone else has got you  
They make you feel

A little less alone  
A little less alone  
A little less alone  
A little less alone
