

# Plain White T's, Meet Me In California

Meet me in California

I knew that this was wrong as I stood reaching for the bedroom light

But she turned me on so I turned it off

Now every man has got his flaws, his breaking point, his sacred cause

And I had mine but I crossed that line

Now I could never ask you to forgive me for the things I do

But if you ever need me you know where Ill be

Meet me in California, Ill be there waiting for your call

Ill be there waiting for you

Cause you know in California theres something better for us all

Meet me in California

This night was like a bible verse with pages torn and missing words

Condemning me and Im on my knees

I wish that I could start again, peel the past like sunburned skin

Right off of me. But its not that easy

And now I could never ask you to forgive me for the things I do

But if you ever need me you know where Ill be

Meet me in California, Ill be there waiting for your call

Ill be there waiting for you

Cause you know in California theres something better for us all

Meet me in California

I dont wanna say goodbye and I dont wanna make you cry

I just wanna see you smile again

Cause everything I used to be is waiting over there for me

This is a beginning not an end

I could never ask you to forgive me for the things I do

But if you ever need me you know where Ill be

Meet me in California, Ill be there waiting for your call

Ill be there waiting for you

Cause you know in California theres something better for us all

Meet me in California

Ill be there waiting for you

Cause you know in California theres something better for us all

Meet me in California
