

Point Of Grace, Life, Love And Other Mysteries

You are lord of life, love and other mysteries
I find in you all I ever need to know

VERSE 1

Some say that life is a stream of romances
To some its a series of choices and chances
While some only live for the curious dances
Of whatever music's at hand

VERSE 2

Some look for light in the eyes of a stranger
While some love the thrill of the edges of danger
But I have found joy in a world filled with anger
Cause I finally understand

CHORUS

You are lord of life, love and other mysteries
You know my future, you know my history
I find in you all I ever need to know
About life and love and other mysteries

VERSE 3

I cannot reason with man in defiance
Or try to explain all the mysteries of science
Cause I'm just a child in the face of these giants
But I never face them alone

VERSE 4

Cause when it seems that my heart is surrounded
When all of our questions of life have been sounded
I rest in the hope where my faith has been grounded
I do not fear the unknown

CHORUS

You are lord of life, love and other mysteries
You know my future, you know my history
I find in you all I ever need to know
About life and love and other mysteries

BRIDGE

Your wisdom confounds the wisest of wise
Your mercy is truth in a world full of lies
Your grace saves us all from a certain demise

CHORUS 2 TIMES

You are lord of life, you're lord of love
(and other mysteries)
You are lord of life, you're lord of love
(other mysteries)
