

# Point Of Grace, Life, Love And Other Mysteries

You are lord of life, love and other mysteries  
I find in you all I ever need to know

## VERSE 1

Some say that life is a stream of romances  
To some its a series of choices and chances  
While some only live for the curious dances  
Of whatever music's at hand

## VERSE 2

Some look for light in the eyes of a stranger  
While some love the thrill of the edges of danger  
But I have found joy in a world filled with anger  
Cause I finally understand

## CHORUS

You are lord of life, love and other mysteries  
You know my future, you know my history  
I find in you all I ever need to know  
About life and love and other mysteries

## VERSE 3

I cannot reason with man in defiance  
Or try to explain all the mysteries of science  
Cause I'm just a child in the face of these giants  
But I never face them alone

## VERSE 4

Cause when it seems that my heart is surrounded  
When all of our questions of life have been sounded  
I rest in the hope where my faith has been grounded  
I do not fear the unknown

## CHORUS

You are lord of life, love and other mysteries  
You know my future, you know my history  
I find in you all I ever need to know  
About life and love and other mysteries

## BRIDGE

Your wisdom confounds the wisest of wise  
Your mercy is truth in a world full of lies  
Your grace saves us all from a certain demise

## CHORUS 2 TIMES

You are lord of life, you're lord of love  
(and other mysteries)  
You are lord of life, you're lord of love  
(other mysteries)
