

# R. Kelly, Your Body's Calling

I hear you calling, here I come baby to save you  
Baby no more stalling, these hands have been longing to touch you, babe  
Bridge

And now that you come around to see it my way  
you won't regret it baby and you surely won't forget it baby  
it's unbelievable how your body's calling for me...(shhhh)  
I can just hear it calling, calling me

Chorus:

My body's(body) calling (babe)for you( I can hear it calling babe)X4

Tell me..

what's your desire? Baby your wish is my will oh yes it is..  
let me take you higher and show you how you should feel baby

So speak now or forever hold your body

Whatever it is you want from me (Lady)

You see you don't have to say nothing

Knowing your body wants something

And its easy for me to see  
that your body is calling me

Chorus

Spoken-

I'm listening baby

I hear you calling me (Repeat 4)

Hear your body calling me

Repeat Chorus (Till fade)
